MULTI-HOSPITAL SYSTEMS/AFFILIATIONS OF IOWA: 2016

Multi-hospital systems/affiliations listed here range from integrated health systems to corporate entities that own, lease, operate or manage two or more hospitals. A more loosely-structured affiliation of hospitals may also be considered a system. Advantages of systems/affiliations often include improved access to expensive equipment, enhanced referral to specialists, better access to capital, shared availability of professional expertise and expansion and control of market share. More than three-fourths of the community hospitals in Iowa are part of a multi-hospital system/affiliation.
